If you are looking for a seamless design to virtually expand the space, this modern, sleek and stylish shower panel is perfect for you. For privacy, acid etched or textured glass panels are the best options to consider.

Clear glass is the way to go for a stylish, unobtrusive and effortless look. Have you considered having a floor to ceiling panel?

Panels with no finishing line gives the appearance of higher ceiling.

A "U channel" against the wall to secure your glass could be used instead of SB10 glass to wall brackets. Both options come in many different colours.

Like a bed, a shower is the most used household fixture. So, let's work together to get your design right from the very beginning.

When safety glass is used, it adds not only elegance but strength as well. Our hardware used is rigorously tested and in line with Australian Industry Standards. We only use top quality silicone, with the added benefit being ozone, thermal and UV resistant. All the factors mentioned, will blend to add durability and Strength.

No specific maintenance is required except for regular cleaning. It's engineered with much thought on versatility and appearance.

At site measure we will discuss the best solution for your requirements and ensure that the options are practical.
